

Riverview Steel is now WBE Canada
Certified

September 20, 2017

We are proud to announce that Riverview Steel has recently been certified as a Women Business Enterprise (WBE) by WBE Canada.

The standard of certification implemented by WBE Canada is a meticulous process that includes an in-depth review of the business (including financial and legal documentation) and a site visit. The certification process is designed to confirm the business is at least 51% owned, operated and controlled by a woman or women. We passed the rigorous scrutiny of our operation.

WBE certification creates opportunities for women-owned businesses to compete for projects in global corporations who understand the innovative and quality benefits from a more diverse supply chain. We are pleased to offer our expertise in servicing customers committed to diversity programs.

Founded in 1988, Riverview Steel has emerged as a leader in multi-cut surface critical blanking and slitting in the steel service center industry. This certification is an important milestone in continuing our growth and success as we enter our 30th year of business.

Sincerely,

A handwritten signature in blue ink, appearing to read "Charelle Anobile".
